* Retention rates are expressed as percentages of the Year 8 cohort. The calculations do not include senior college students, full fee-paying overseas students or mature-age students at senior campuses (from 1996). Apparent retention rates do not account for net changes to the school population caused by interstate and overseas migration or students moving between school sectors. Changes in net migration particularly inflated the 2014 apparent retention rate relative to earlier years and 2015.

** Figures as at Semester 2 student census.

*** The 'half-cohort' progressed through school between 2001 and 2014, including Year 7 in 2009, Year 8 in 2010 and Year 12 in 2014.
