School Curriculum and Standards Authority report on
Vocational Education and Training in Senior Secondary Education
Western Australia
2011

Released by

Allan Blagaich

Acting Chief Executive Officer
School Curriculum and Standards Authority

CURRENCY STATEMENT

The data published in this report indicates activity at a specific point in time. Enrolment and achievement data is subject to variability based on a variety of circumstances at both the student and school level.

All tables and graphs created by School Curriculum and Standards Authority.

Summary

Vocational education and training (VET) in schools is in the spotlight at both a national and state level, particularly with regard to perceived issues around the quality of training, the outcomes of VET in schools programs and the role that VET in schools plays in the broad spectrum of Australia's future workforce capabilities. It has become evident that VET serves a number of purposes.

For students, VET in their senior secondary program can be perceived as a means of career exploration, as a mechanism for achieving senior secondary graduation or to become more competitive in the workplace, further education, training or employment. For schools, VET may be seen as a strategy for retaining and/or engaging students in senior secondary education or to 'value-add' to a senior school program. Finally, industry may factor VET in schools as a part of an overall workforce development strategy, providing students with basic skills for a future within the industry.

VET in senior secondary education

Attempting to capture the factors that constitute an effective senior secondary VET program is challenging. It is clear that the 'VET in schools student cohort' is an evolving group of students. Students undertaking VET in WA have access to a broad variety of curriculum pathways with many choosing to combine traditional courses with VET as a part of their senior secondary program. In addition, students who undertake training outside a school-arranged VET program may use this achievement to contribute towards their WACE. It is becoming common for students to use VET achieved as a part of their after-school-hours employment to contribute towards meeting the requirements of the WACE.

Schools face a challenging task when offering VET in schools programs to students. They are required to simultaneously satisfy the requirements set out by various national agreements and initiatives, reflect evolving industry demands and expectations, and respond to various State training and workforce development targets and strategies. Schools are increasingly relying on innovative practices and partnerships with other schools, community partners, the training sector and industry to enable their students to access VET in schools programs.

The data presented in this report should not be used to draw simplistic conclusions about the performance of particular schools or to draw inferences and make generalisations on VET in senior secondary, as the data alone does not provide sufficient detail about the intention and quality of a school's VET program.

Rather, the effectiveness of VET in WA senior secondary schools needs to be considered more broadly by reflecting on the following:

- What are the post-school outcomes for VET students from a particular school and how well has it maximised their transition into further employment and training?
- How does the school's VET program help students refine their own career aspirations and pathways?
- Is VET a part of the whole school culture or is it confined to a discrete group of students and if so, what are the outcomes for those students?
- To what extent does qualification completion data adequately measure of success of a VET program when achievement of a skill set formed the basis of their intent?

Furthermore, many schools combine VET and workplace learning. To achieve this, it can require a qualification to run over a two-year period to take advantage of the opportunity to undertake training in the workplace as part of full a WACE program. Schools that offer this opportunity to their students may not feature highly when ranked against other schools or in data that identifies Year 11 qualification completions. The same can be said for data that ranks student participation in VET nominal hours in excess of 220 nominal hours in Year 12.

It can be argued that senior secondary programs that seek to encompass the broad range of learning opportunities – that is, programs that include VET qualifications delivered to students in a realistic time frame and consolidated through contextualised learning opportunities through workplace learning – represent good practice in terms of maximising student outcomes.

Introduction

Vocational Education and Training (VET) in school programs were introduced in Western Australia in 1997. The original intention of 'VET in schools' was to provide options that would maintain young people's interest and participation in post-compulsory senior secondary years of schooling.

Since its inception, participation in these programs has grown from 3 per cent of Year 11 and 12 students to an enrolment rate of 39 per cent in 2011. This strong growth reflects in part, uptake in response to the raising of the school leaving age for WA students to 17 in 2006. Under the *Higher School Leaving Age and Related Provisions Act 2005*, all Western Australian 17-year-olds have to be engaged in full-time school or a combination of school, training and/or employment. In response to this change in legislation, it was required that the Western Australian Certificate of Education (WACE) provide recognition of all valuable learning undertaken by students in their senior secondary years.

Nationally, VET in schools is where

- it is undertaken as part of a senior secondary certificate (*National Principles for VET in Schools*, MCEETYA 1998)
- completion by the student provides credit toward a recognised VET qualification within the Australian Qualification Framework (*New Pathways for Learning*, MCEETYA, March 2000, page 82).

The Department of Education's *Vocational Education and Training for School Students* policy underpins the delivery of VET to school students in Western Australian schools. The policy replaces the *Joint Ministerial Policy Statement on Vocational Education and Training for school students in Western Australia 2005*.

The School Curriculum and Standards Authority is an independent statutory authority that is responsible to the Minister for Education. It is administered by a board consisting of seven members chosen for their experience in education and assessment.

One of the key purposes of the Authority is to provide for the assessment and certification of student achievement. This includes the provision of mechanisms for the recognition of VET in the Western Australian Certificate of Education (WACE). The WACE is a Senior Secondary Certificate of Education (SSCE) within the Australian Qualification Framework (AQF).

VET in the WACE

The School Curriculum and Standards Authority recognises any nationally endorsed VET qualifications and/or units of competency and nationally recognised accredited courses attained towards the achievement of a WACE in years 10, 11 or 12. This includes VET achievement by senior secondary students outside of a school arrangement.

Students must fulfil specific requirements to achieve a WACE. One requirement is that students gain a breadth and depth of study within their senior secondary program. This requirement stipulates students must complete at least 20 units of

which at least 10 must be from WACE courses. Up to 10 of these units may be unit equivalence for achievement in VET and/or Authority endorsed programs (e.g. approved Community Learning, University Studies and Personal Development programs).

The Authority provides three recognition arrangements for VET achievement in the WACE as:

- *WACE course units* when completed through VET industry specific courses (formal recognition). VET industry specific courses specify completion of full AQF qualifications and mandatory workplace learning.
- *Unit equivalence* when achieved through VET credit transfer delivery and assessment (unspecified credit). In the context of the WACE, VET credit transfer is used to describe VET delivery and assessment that occurs independent (stands alone) of WACE course delivery. That is, the VET program is allocated separate learning time within a student's senior secondary program regardless of delivery mode (on school campus or at another site).

VET integrated within a course involves the concurrent (embedded) delivery and assessment of VET units of competency with a WACE course. While VET achieved in this manner does not contribute to meeting WACE requirements, achievement details are published on a student's statement of results. Depending on the extent to which the content aligns, the WACE course and VET units of competency enable students to meet the requirements and components of both. It is for this reason that dual credit towards meeting WACE requirements is not awarded. The recognition arrangements set out by the Authority are *not* VET programs; rather they are the mechanism provided for recognition of VET within the WACE.

In 2011, 11 742 Year 12 students achieved unit equivalence towards the WACE through either VET or endorsed programs. Of these students, only 1561 students required the achievement of unit equivalence to meet requirements for a WACE. This data provides a strong indication that the perceived value of VET and endorsed programs by schools and secondary students is influenced by factors other than as a mechanism for graduation. As it stands, the data suggests that most students see the immediate value and significance in undertaking these programs, as well as the additional benefits that they offer.

VET quality in the WACE

VET is recognised by the Authority on the basis that the quality is regulated by the VET sector. VET undertaken as a part of a school program must meet the requirements outlined in the AQTF Essential Conditions and Standards (for RTOs regulated by WA's Training Accreditation Council) or the VET Quality Framework (for RTOs regulated by the Australian Skills Quality Authority under the National VET regulator). As such, schools must become a registered training organisation (RTO) or work in a partnership arrangement with an RTO. VET not certified by an RTO cannot contribute towards the WACE.

While the Authority advocates quality VET in schools programs, its responsibility is to record enrolments and results and report on it. Issues that relate to the quality of delivery, assessment and the outcomes of training sit outside of the scope of responsibility and influence of the Authority. The Authority regularly conducts integrity checks on school achievement data to verify whether RTO transcripts of achievement retained by the school are consistent with the achievement data sent to and reported by the Authority.

In WA, the Training Accreditation Council (TAC) is responsible for quality assurance and recognition processes for RTOs and for the accreditation of courses. For RTOs in partnership with WA schools, but with scope not limited to WA, the quality assurance is regulated under the National VET regulator through the Australian Skills Quality Authority (ASQA). All school RTOs are subject to the same audit processes by TAC as other training providers involved in VET in schools delivery and assessment.

There is an assumption that VET in schools consist only of programs that are delivered and assessed within a classroom by a teacher. Whilst this method of delivery is practiced it does not adequately reflect the range of VET in schools programs on offer. The issue that follows from this assumption is that the quality of VET in schools is directly linked to the outcomes of the institutional delivery of qualifications.

Institutional delivery of VET in WA schools is subject to the same audit processes as all other institutional delivery by RTOs. Compliance audits are carried out by either the TAC or ASQA. Outcomes from the delivery of VET in *any* institutional setting has its limitations regardless of whether it is delivered and assessed through a VET in schools program, by a state training provider or private RTO.

WA schools rely heavily on partnership arrangements with RTOs for up-to-date information relating to specific content and delivery requirements of a VET program. VET delivery in WA schools is typically through an auspice arrangement with an RTO for the delivery and assessment of training. The number of schools who have RTO status in WA is minimal. Schools with RTO status generally have limited scope to deliver.

The basis for a partnership agreement between the school and an RTO is that:

- 1) students will receive the appropriate training
- 2) there is the appropriate certification of that training
- 3) the AQTF or VET Quality Framework standards are managed
- 4) the industry standards prescribed in training packages will be met.

The Authority works closely with the WA VET sector and industry stakeholders to encourage schools and students to undertake quality VET programs. One mechanism aimed at achieving this has been the development of the VET industry specific WACE courses. These courses are accredited by the Authority and are subject to a number of requirements. Each VET industry specific course is developed collaboratively with representatives from schools, training providers, members of business and industry and the WA Industry Training Councils (ITC).

All VET industry specific courses meet the packaging rules specified in the relevant national training packages and require delivery and assessment to be carried out in accordance with the AQTF. Final sign off from the relevant ITC chief executives is a requirement for accreditation of these courses by the Authority. The sign off of the VET industry specific courses affirms that the Industry Training Council is satisfied that the course meets the expectations of a quality VET in schools program and complies with the training package rules.

Part 1: 2011 senior secondary student VET cohort

1.1 Senior secondary cohort

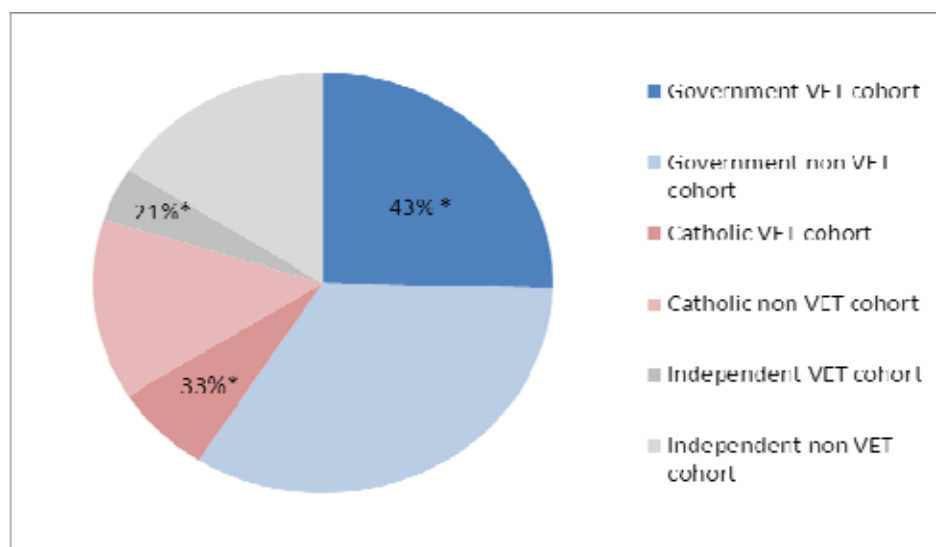

In 2011 there were 67 134 senior secondary students (students in Years 10–12). For the purposes of this report, a senior secondary student is defined as one who is enrolled in at least one WACE course unit, one VET unit of competency or one endorsed program. There were 1317 Year 10–12 overseas students in 2011; these students have been omitted from the data in this report.

1.2 Senior secondary participation in VET

In 2011, 36 per cent of students in years 10–12 enrolled in at least one qualification with 34 per cent of senior secondary students completing at least one unit of competency from these qualifications. This statistic remains stable across years 11 and 12 with 36 per cent of Year 11 students (32 per cent in 2010) and 37 per cent of Year 12 students (35 per cent in 2010) achieving at least one unit of competency. There has however been a decline in the number of Year 10 students enrolled in VET from 4918 (35 per cent of Year 10 cohort) students enrolled in at least one VET unit of competency in 2010 to 4361 (28 per cent of Year 10 cohort) in 2011. The proportion of Year 10 students completing at least one VET unit of competency has reduced from 32 per cent of the Year 10 student cohort in 2010 to 26 per cent in 2011.

Figure 1 illustrates the percentage of senior secondary students (years 10–12 students) in each school system and sector as a proportion of the total senior secondary cohort in 2011. In addition, it identifies the 'VET cohort' as a proportion of the number of students within each individual system and sector. The VET cohort is defined as the number of students enrolled in at least one qualification (enrolled in at least one VET unit of competency from at least one qualification). That is, 43 per cent of senior secondary students in the Government system, 33 per cent in the Catholic system and 21 per cent of senior secondary students in the Independent school sector were enrolled in at least one qualification in 2011.

Figure 1: Composition of VET students in the senior secondary student cohort by school sector and systems, 2011

*Reflects the proportion of students within the 'VET cohort' for that particular sector or system.

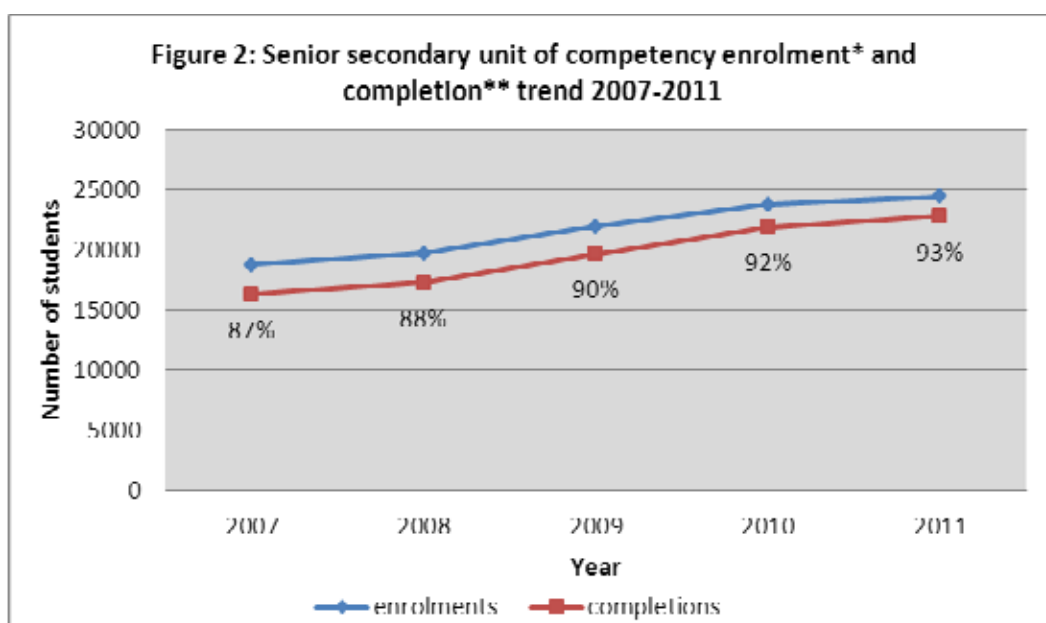

1.2.1 VET enrolments and completions

The School Curriculum and Standards Authority senior secondary VET enrolment data is collected from schools at the unit of competency level in order to calculate unit equivalence towards the WACE. Unit equivalence is calculated on the basis of one unit equivalent for every 55 nominal hours of VET. A student's total unit equivalence contributes to meeting the depth and breadth requirements for achievement of a WACE.

Within the context of the WACE VET data, effort is represented as enrolment in at least one VET unit of competency. The Authority's enrolment data illustrates student intention to undertake training within a qualification, while completion data reflect successful achievement at both the unit of competency and qualification level.

The enrolment and achievement data presented here should not be used to draw simplistic conclusions about what constitutes successful outcomes in VET in schools programs. That is, this data does not adequately capture a student's intention to achieve a partial qualification or skills set, or whether the student intends to complete a full qualification. Both objectives have merit. Schools will often report to the Authority only enrolments in units of competency that a student intends to complete in the current year or units that form part of a skills set. It can be said, therefore, that if the student only intends to complete a partial qualification and does so, it should be deemed a successful outcome.

The proportion of senior secondary students who were enrolled in at least one VET unit of competency and who subsequently completed a unit has continued to rise steadily, from 87 per cent in 2007 to 93 per cent in 2011 (*Figure 2*). The number of students who enrolled in at least one VET unit of competency increased only slightly (by 3 per cent) in 2011 – an increase of 673 students – in comparison to an 8 per cent increase in 2010 and 11 per cent in 2009. Despite this, the completion rates of students enrolled continue to rise. The decline in the number of Year 10 students enrolled in VET accounts for the marginal increase in total senior secondary student enrolments.

* Students who enrolled in at least one unit of competency. A student is only represented once.

** Students who successfully completed at least one unit of competency. Students who were given recognition of prior learning or credit transfer are also included. A student is only represented once.

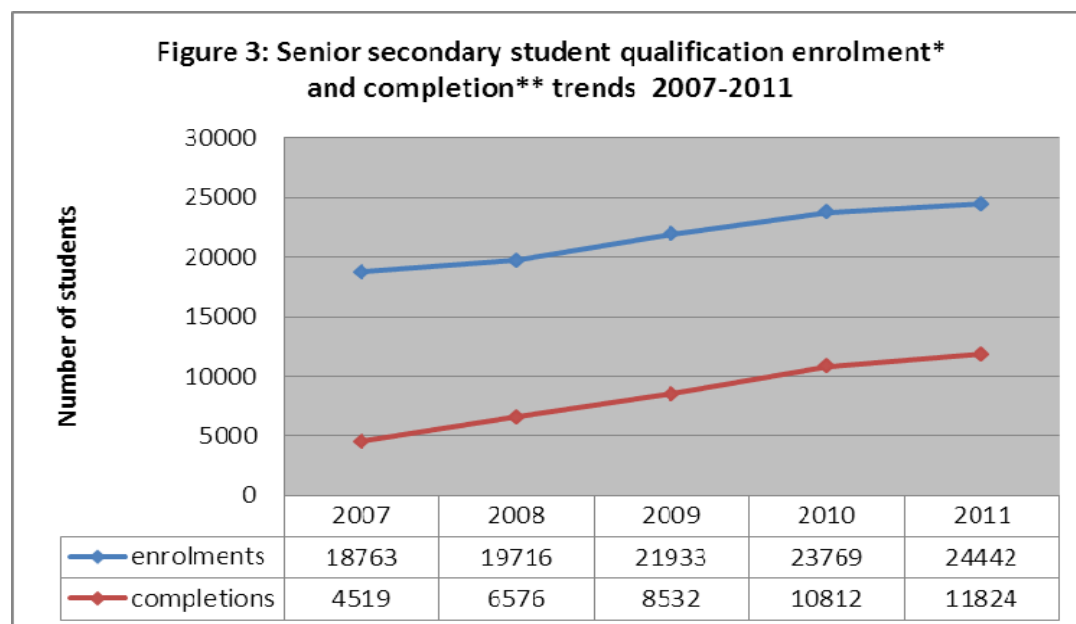

1.2.1.1 Full qualification completions

Western Australian schools generally report to the Authority only the enrolments in VET units of competency that students intend on undertaking within the current year. This differs to enrolment practices with a registered training organisation where students are enrolled in a full qualification regardless of the intention to complete it or the duration over which full achievement is intended to be accomplished. It follows therefore, that the Authority defines enrolment in a qualification within the context of senior secondary as students enrolled in at least one unit of competency within a particular qualification.

Schools provide additional information to the Authority to report achievement of a full qualification once a student has been issued by an RTO with certification of that achievement. This information is collected separate to VET unit of competency achievement and is reported by data transfer to the Authority as full qualification achievement. Students who achieve at least one unit of competency within a qualification and are not reported as having achieved a full qualification are counted as having only achieved a partial qualification.

In 2011, 36 per cent of senior secondary students enrolled in at least one qualification with 18 per cent of the senior secondary cohort continuing on to complete at least one qualification.

Figure 3 illustrates the number of senior secondary students enrolled in at least one qualification alongside the number of students who achieved at least one qualification. Trends indicate there has been a steady increase in qualification completions since 2007.

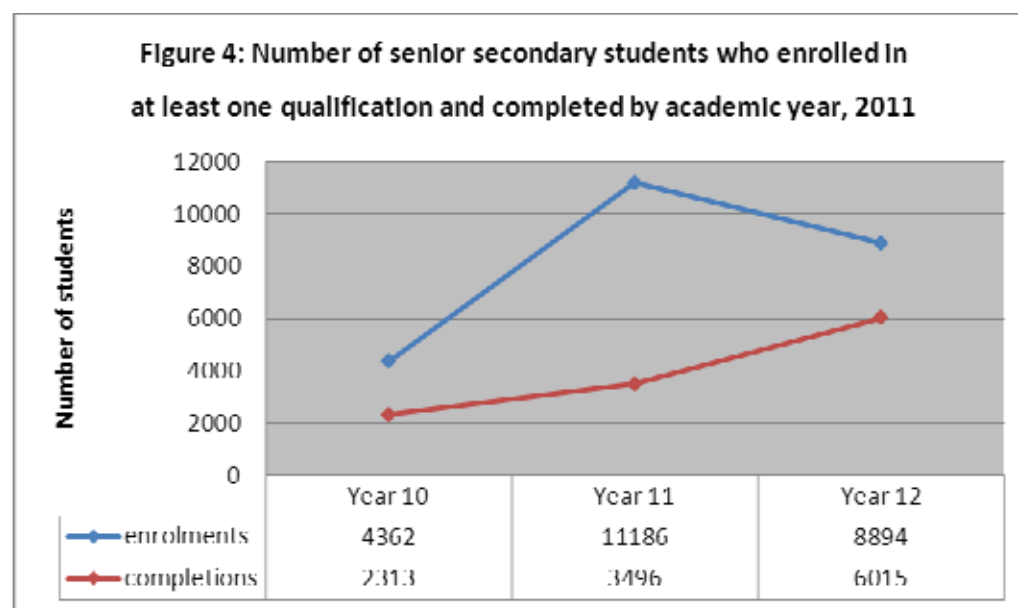

*Students enrolled in at least one unit of competency. A student is only counted once.

** Students who completed at least one qualification. A student is only counted once.

The slight increase in the number of students enrolled in at least one qualification in 2011 occurred despite a decrease of 11 per cent in Year 10 student enrolments from 4 918 students in 2010 to 4362 in 2011. The decrease in enrolments of Year 10 students was evident across all school systems and sectors. The number of students in Year 10 who achieved at least one qualification increased marginally. Enrolments

in at least one qualification by students in Years 11 and 12 continued to rise in 2011 on previous year's enrolments.

The low proportion of qualifications completed in Year 11 compared to years 10 and 12 is a notable feature of the data reflected by a substantial gap between the two data points for Year 11 students in Figure 4. Schools tend to offer low level qualifications to students in Year 10 with the intention of completing them by the end of the academic year. It is more common for schools to enrol students in Year 11 in higher AQF level qualifications with the intention of completing them over the final two years of education. This tendency is reflected in Figure 4 with 53 per cent of Year 10 students, who enrolled in at least one qualification in 2011, completing the qualification that year, whereas only 31 per cent of Year 11 students and 68 per cent of Year 12 students completed a qualification in one year.

Table 1: Senior secondary students who enrolled in at least one VET qualification and completed by academic year and school system/sector, 2011

School Sector	2011							
	Year 10		Year 11		Year 12		All Students	
	Enrolled	Completed	Enrolled	Completed	Enrolled	Completed	Enrolled	Completed
Government	2440	943	8341	2301	6215	3929	16996	7173
Catholic	1436	1082	1663	821	1552	1302	4651	3205
Independent	486	288	1182	374	1127	784	2795	1446
Total	4362	2313	11186	3496	8894	6015	24442	11824

Table 1 reveals specific school system/sector data for 2011. The data shows that Catholic schools reported 68 per cent of their senior secondary cohort who enrolled in VET as completing a qualification in comparison to the Government system which reported 42 per cent and the Independent schools with 51 per cent. There are many factors that contribute to these completion statistics that sit outside of the scope of this data. School system and sectors have implemented programs varying in structure to maximise students' learning opportunities in VET, WACE courses and Authority developed programs. These programs are generally structured over two to three years.

The data in Table 2 provides a summary of qualification achievements by Australian Qualification Framework (AQF) level and gender in 2011. The data indicates that 50 per cent (46 per cent in 2010) of the qualifications achieved by Year 12 students in 2011 were at AQF level 2 in comparison to 40 per cent (43 per cent in 2010) at AQF level I. These statistics are in contrast to the trend in Year 11 where qualification completions for Certificate I account for 76 per cent (70 per cent in 2010) of completions compared to 22 per cent (24 per cent in 2010) at AQF level II.

Certificate III qualifications achieved by Year 12 students represent only 8 per cent (9 per cent in 2010) of total Year 12 qualification completions; moreover they represent just 4 per cent of all qualifications achieved by senior secondary students. This modest achievement at AQF level III is generally confined to delivery arrangements aimed at individual students rather than delivery within a school institution through an auspiced delivery arrangement with RTOs.

Table 2: Senior secondary AQF qualification level achievement summary by gender and year group, 2011

AQF level	Year 10			Year 11			Year 12			All		
	Male	Female	All	Male	Female	All	Male	Female	All	Male	Female	All
I	1419	1079	2498	1972	1331	3303	2046	1331	3377	5437	3741	9178
II	115	142	257	461	514	975	2138	2131	4269	2714	2787	5501
III	0	0	0	23	44	67	224	475	699	247	519	766
IV	0	0	0	8	0	8	77	84	161	85	84	169
Totals	1534	1221	2755	2464	1889	4353	4485	4021	8506	8519	7131	15614

**Three accredited courses without a qualification/course level of education identifier have been omitted from this table and account for 48 completions in 2011.*

Completion rates of qualifications for Year 10 students are typically at Certificate I level. This statement is supported by the data set out in Table 2 which indicate that 91 per cent (90 per cent in 2010) of the 2755 qualifications completed by Year 10 students in 2011 were at AQF level I.

1.2.1.2 Qualification completion by gender

Tables 3 and 4 provide an insight into the most common qualifications achieved (by gender) by the 2011 senior secondary student VET cohort.

The popularity of qualifications at AQF level I and II in Business and Information Technology remain highest across the genders in 2011. In 2011, 118 female students (in comparison to 51 male students) achieved a Certificate III in Business making it the only AQF level III qualification to be included in the top 15 qualifications for both genders. The contrast between the genders in relation to popularity of qualifications is substantial. The data supports the trend for male students to complete qualifications from traditionally male-dominated industries whilst female students tend to undertake training in hospitality, community services, languages and the arts.

Table 3: Top 15 full qualification achievement by male senior secondary students, 2011

Qualification Code	Qualification Name	Male students
BSB10107	Certificate I in Business	1068
ICA10105	Certificate I in Information Technology	710
MEM10105	Certificate I in Engineering	589
LMF10108	Certificate I in Furnishing	528

1.3 Year 12 VET activity 2011

NOTE: The data in section 1.3.1 Year 12 general findings defines a Year 12 student¹ as one who *completed* at least one course unit or equivalent and the number of repeaters, re-enterers, overseas students and mature age students.

1.3.1 Year 12 general findings

Year 12 population

- In 2011, 23,564 Year 12 students undertook studies towards the WACE. This is an increase of 1.8 per cent on the 23,153 students in 2010.
- In addition, in 2011, 4,673 (4,099 in 2010) 17 year olds were engaged in apprenticeships, traineeships, employment and/or training. These young people were not enrolled in schools.
- In 2011, there was an increase in the number of students repeating or re-entering Year 12 (from 253 in 2010 to 293 in 2011).
- In 2011, the number of mature-age Year 12 students increased to 463 compared to 410 in 2010.

¹ 'Completing' a course unit is defined as obtaining either a grade (A, B, C, D, or E) or U notation in the course unit. 'Repeaters' are Year 12 students who complete at least one course unit or equivalent in the year following first enrolment in Year 12. 'Re-enterers' are Year 12 students who complete at least one course unit or equivalent more than one year after first enrolment in Year 12. 'Mature-age' students were aged 19 or more on 1 March of the year in which their results were awarded.

Secondary graduation (WACE)

- Of the 23 564 (23 153 in 2010) Year 12 students, 21 621 (21 296 in 2010) full-time students were eligible to graduate.
- In 2011, 97.4 per cent of eligible students graduated. The graduation rate has steadily increased since 2000, when 91.5 per cent of Year 12 students graduated.

WACE course examinations

- Slightly more Year 12 students (13 199) sat four or more WACE course examinations, than in 2010 (13 041). Students who sit four or more WACE course examinations are eligible for an ATAR.

WACE courses

- 21 621 (21,296 in 2010) Year 12 students completed at least two WACE course units. Of these, 11 869 (11 902 in 2010) achieved an A grade in at least one course unit.

VET

- In 2011, 34.2 per cent (33.6 per cent in 2010) of Year 12 students (students who completed at least one course unit or equivalent) participated in VET programs.
- In 2011, 7,002 Year 12 students achieved at least one VET qualification in Year 10, 11 or 12, compared with 6578 in 2010.
- In 2011, there were 4905 Certificates II, III or IV achieved. Comparative figures for 2010 and 2009 were 4343 and 3437 respectively. In 2011, 687 students achieved Certificate III and 160 students achieved a Certificate IV. The corresponding numbers in 2010 were 659 and 133.
- In 2011, 793 Year 12 students achieved a Certificate II in Business. In 2010 the most popular qualification was a Certificate I in Business, achieved by 697 Year 12 students.

Endorsed programs contributing to the WACE

- In 2011, 6989 students completed at least one endorsed program. Of these, 166 completed university programs, 2838 students completed personal development programs, 1550 students completed community organisation programs and 2435 students completed workplace learning as an endorsed program.

1.3.2 Year 12 VET enrolment and completion

In 2011, of the 8894 (9016 in 2010) Year 12 students who enrolled in at least one unit of competency 6015 or 68 per cent (5674 or 66 per cent in 2010) achieved at least one qualification.

Out of the 23 012 Year 12 students (see definition in section 1.1) enrolled in at least one VET unit of competency, WACE course unit or endorsed program 26 per cent achieved at least one qualification in their final year.

Table 5 provides longitudinal data relating to the 2011 Year 12 VET activity in terms of enrolment in at least one unit of competency (effort) and completion of at least one qualification (achievement) in VET. The data indicates a noticeable increase in the number of students who completed at least one qualification as they progressed through their senior secondary program, particularly between years 11 and 12. The proportion of students enrolled in a VET qualification that subsequently complete at least one qualification decreased in Year 11 from their Year 10 qualification completion figures only to rise again in Year 12. It is interesting to note that whilst overall this is the case, Year 12 students in the Government school system did not

follow the trend. Qualification completion rates for these students rose slightly between years 10 and 11.

Table 5: Year 12 VET qualification enrolment and completion activity during senior secondary, 2009–2011

School Sector	The 2011 Year 12 cohort VET activity during senior secondary								
	Year 10 2009			Year 11 2010			Year 12 2011		
	*Enrolled	Completed **	%	*Enrolled	Completed **	%	*Enrolled	Completed **	%
Government	2865	574	20	7504	1709	23	6215	3929	63
Catholic	806	545	68	1546	807	52	1552	1302	83
Other Independent	780	473	60	1239	321	26	1127	784	69
Total	4451	1592	36	10289	2837	27	8894	6015	68

* Students who enrolled in at least one unit of competency. †

** Students who successfully completed at least one qualification. Those students who were given either recognition of prior learning or credit transfer are also included in the completed numbers. A student is only represented once.

Table 5 also reveals two distinct VET programs delivered by schools. Many schools offer VET programs over the two years of a senior secondary program with students either completing a qualification or completing the majority of a qualification by the end of Year 12.

The second type of VET program is one where students are engaged in substantial VET in years 10 and 11 and choose to go on to further employment or training or move their focus to WACE courses in Year 12.

In 2011, of the schools with full-time eligible students in Year 12, 9 per cent had all of their Year 12 students participating in VET (completed at least one unit of competency). Additionally, 39 per cent of schools had 50 per cent or more of their Year 12 cohort involved in a VET program of some description. Refer to Appendix 1: Table A: 2011 Vocational Education and Training – participation and achievement, for individual school breakdown of the 2011 Year 12 participation in VET during their senior secondary years. Table 6 provides a list of schools in 2011 with 20 or more full-time eligible Year 12 students and 50 per cent or more of these students involved in a VET program.

Table 6: Schools with 50% or more of their Year 12* cohort involved in VET, 2011

*Refers to Year 12 students who are both full time and eligible to graduate.

**Schools with less than 20 full time, eligible students have been omitted from this table. For a complete list of school VET activity for Year 12 student data please refer to Appendix 1.

1.3.2.1 Year 12 full qualification completion

Table B: 2011 VET qualifications awarded (Appendix 2) identifies all full qualification completions by Year 12 students in 2011.

An extract from Table B is presented in Table 7. This table highlights the qualifications reported as having 100 or more Year 12 student full qualification completions in 2011. In addition, the data indicates the most popular qualifications completed by Year 12 students in 2011.

Table 7: Qualifications for which there were 100 completions by Year 12 students, 2011.

Qualification Code	Name	State-wide		
		Male	Female	Total
BSB20107	Certificate II in Business	228	565	793
BSB10107	Certificate I in Business	350	434	784
ICA20105	Certificate II in Information Technology	356	182	538
ICA10105	Certificate I in Information Technology	217	189	406
MEM10105	Certificate I in Engineering	315	9	324
SRS20306	Certificate II in Sport (Coaching)	178	112	290
LMF10108	Certificate I in Furnishing	235	34	269

RTE20103	Certificate II in Agriculture	147	58	205
SIT20307	Certificate II in Hospitality (Kitchen Operations)	59	144	203
SRO10106	Certificate I in Sport and Recreation	124	61	185
CHC20108	Certificate II in Community Services	3	170	173
BSB30107	Certificate III in Business	48	115	163
MEM20105	Certificate II in Engineering	150	11	161
CHC10108	Certificate I in Work Preparation (Community services)	43	109	152
CPC10108	Certificate I in Construction	136	9	145
CUF20107	Certificate II in Creative Industries (Media)	71	57	128
AUR20705	Certificate II in Automotive Mechanical	104	14	118
SIT10207	Certificate I in Hospitality	37	81	118
BSB40207	Certificate IV in Business	63	55	118
CUV10103	Certificate I in Visual Arts and Contemporary Craft	62	46	108
AUR10105	Certificate I in Automotive	105	2	107

Qualifications in Certificates I and II in Business and Information Technology continue to be the most common qualifications achieved by Year 12 students, possibly due to the accessibility to training resources and flexible modes of delivery in partnership with RTOs in these qualifications. A notable feature of this data is that 2011 is the first year that a Certificate IV qualification was reported as having full qualification achievements above 100 by Year 12 students.

Achievements in the traditional trade areas such as Construction and Hospitality remain strong. There was approximately a 25 per cent increase in completions of both the Certificate I in Construction and Certificate II in Hospitality (Kitchen Operations) on the 2010 figures for these qualifications. On the contrary, completions of full qualifications by Year 12 students in another key trade area, Automotive, declined in 2011. Year 12 achievement in Certificate I in Automotive increased from 88 achievements in 2009, up to 114 in 2010, decreasing to 107 in 2011.

Engineering continues to grow in popularity, showing a significant increase in full qualification achievements from 189 Year 12 achievements in 2009, 294 in 2010 and 324 in 2011. The Certificate II of Engineering also experienced an increase of approximately 20 per cent on 2010 achievements.

The most noticeable growth in qualification completions by 2011 Year 12 students was a 79 per cent increase in the Certificate II in Visual Arts from 127 completions in 2010 to 227 completions in 2011. Only 58 Year 12 students completed the Certificate I in Visual Arts in 2010 with 2011 data indicating achievements of 108.

In 2011, the Certificate II in Community Services featured for the first time in qualifications with greater than 100 full qualifications completions. Year 12 students achieved 112 qualifications up from 79 in 2010. In contrast to 2010, the Certificate II in Tourism and Outdoor Recreation did not feature. Year 12 completions in these qualifications are reported as having declined to only 95 (112 in 2010) and 85 (115 in 2010) respectively.

Part 2: Workplace learning (WPL) and VET

The value of a VET program that incorporates workplace learning (WPL) is undeniable. The validity of this assertion is consistently affirmed by the experience of representatives from the VET sector and industry that are involved each year in judging the School Curriculum and Standards Authority VET Awards. Feedback from these judges invariably includes acknowledgement of the calibre of students shortlisted for exhibitions and certificates of distinctions as uniformly 'outstanding'.

To be eligible for a VET award, a student must complete a given amount of workplace learning in addition to a full qualification at AQF level 2 or above. It is clear that shortlisted students gain invaluable transferable skills through the provision of workplace opportunities available to them outside the parameters of the school environment. The employability skills gained by students in the context of a qualification help better prepare students for *any* post-school pathway.

The data that follows suggests the potential for the enriched learning opportunity that can be gained through an increase in the strategic combination of VET and WPL remains to some extent unrealised. It is acknowledged that the extent to which schools can offer this combination can be subject to various limiting factors. Schools are encouraged however, where possible, to provide students with the opportunity to receive the benefits of a VET program that includes access to industry and the real-life work environment so as to enhance their overall experience and outcomes.

Table 8 reports the number of students in 2011 that completed at least one VET unit of competency and a grade in the Workplace Learning WACE course or a unit equivalent from a workplace learning endorsed program.

Table 8: Number of students* that completed units of competency and WPL endorsed program or WPL course, 2011

School System/Sector	Students that achieved VET & WPL, 2011				Total number of students that completed at least one VET UoC
	Year 10	Year 11	Year 12	All students	
Government	255	3569	2569	6393	15658
Catholic	34	644	628	1306	4483
Other Independent	1	455	494	950	2676
Total	290	4668	3691	8649	22817

* Students who achieved at least one Authority WPL endorsed program unit equivalent or a grade in at least one WPL WACE course unit in addition to at least one VET unit of competency.

There were 22 817 (21 613 in 2010) senior secondary students in 2011 who achieved at least one unit of competency. Of these students 8649 students (38 per cent) completed VET and WPL as compared to 7930 students (37 per cent) in 2010 and 39 per cent in 2009. It is a positive sign that as participation in VET increases so

too does the number of students combining workplace learning as a part of their program.

In 2011, there were 8523 Year 12 students who completed at least one VET unit of competency. Of these students, 3691 (43 per cent) completed VET and WPL compared to 44 per cent in 2010 and 45 per cent in 2009. In Year 11, 47 per cent of students completed at least one VET unit of competency and workplace learning.

Part 3: Registered Training Organisation (RTO) representation

3.1 2011 RTO WACE delivery (students)

In 2011, as reported to the School Curriculum and Standards Authority, there were 143 RTOs involved in VET delivery to senior secondary school students. The representation of RTO VET in school delivery is reflected in the Table 9 below.

Table 9: RTO VET in schools delivery summary, 2011

RTO Type	Number of students		Number of RTOs
	TOTAL	%*	TOTAL
State	10 319	41	10
Private	11 937	48	111
Schools	2826	11	22
TOTAL	25 082		143

**Represents the proportion students undertaking at least one unit of competency from a qualification at an RTO. Students may be counted more than once. Some students may be enrolled in multiple qualifications and/or multiple RTOs.*

3.2 State training providers

Table 10: State training provider delivery summary, 2011

RTO	Total number of students*	Total number of schools
Central Institute of Technology	2941	106
Polytechnic West	2480	118
Challenger Institute of Technology	1895	72
Durack Institute of Technology	617	15
South West Institute of Technology	553	24
West Coast Institute of Training	456	40
C Y O'Connor Institute	434	27
Great Southern Institute of Technology	433	11
Pilbara Institute	321	8
Kimberley Training Institute	189	10

**Represents the number of students undertaking at least one VET unit of competency. Students may be counted more than once. Some students may be enrolled in multiple qualifications and/or multiple RTOs.*

Approximately 41 per cent of student enrolments in qualifications as part of the WACE were accessed in partnership with a State training provider (formerly TAFEWA). Table 10 provides a breakdown of this partnership in terms of the proportion of schools and students by state training provider. The range of qualifications and units of competency offered by State training providers to secondary school students was more diverse than their private training provider counterparts delivering 4795 different units of competency to VET in schools students. This is in comparison to that range offered by both private training providers (3718 different units of competency offered) and secondary schools (1603 different units of competency) with RTO status.

3.3 Private training providers

In 2011, approximately 48 per cent of student enrolments in qualifications undertaken as part of the WACE were accessed via a partnership with a private training organisation. The RTO with the second highest number of school partnerships was National Corporate Training with 108 schools (Polytechnic West had the greatest number of school partnerships at 118). Additionally, National Corporate training also delivered the highest number of qualifications to students in 2011.

Table 11: Top 20 private training providers delivery summary, 2011

RTO	Total number of students*	Total number of schools
National Corporate Training	7651	108
South Metropolitan Youth Link	484	55
St John Ambulance Australia (WA) t/as The College of Pre-Hospital Care	357	22
VTEC Training WA	297	11
Jobs South West	240	16
Skills Strategies International	213	10
Hospitality Group Training (WA) Inc.	159	30
Australian Institute of Technology Transfer	152	2

Group Training South West t/as The Apprentice & Traineeship Company	74	16
College of Electrical Training	72	22
Southern Grampians Adult Education Centre Inc	69	1
Nationwide Transport Training (Australia)	61	13
Mt Pleasant Baptist Community College	57	7

**Represents the number of students undertaking at least one VET unit of competency. Students may be counted more than once. Some students may be enrolled in multiple qualifications and/or multiple RTOs.*

3.4 School-based RTOs

Approximately 11 per cent of student enrolments in qualifications undertaken as part of the WACE were delivered by WA RTO schools in 2011. Generally, RTO schools have a limited scope with specific focus on particular industry areas. Innovative partnerships and an observed trend for schools to specialise in particular industry areas means they are beginning to expand their scope of delivery to 1603 different units of competency.

Table 12: Secondary schools that are also registered training organisations delivery summary, 2011

RTO	Total number of students*	Total number of schools
Peron Alliance of Curriculum & Teaching	496	7
Sevenoaks Senior College	321	1
Australian Trades College (WA) Ltd	267	7

Catholic Agricultural College Bindoon	37	1
Bunbury Senior High School	14	1

Part 4: Industry activity

The data presented in Table 13 illustrates full and partial qualification completion within various training packages. It identifies numbers of students who enrolled in at least one unit of competency from a training package and the number of students who completed a partial qualification or full qualification. A partial qualification refers to students who have successfully completed at least one unit of competency within the training package. In addition, the percentage of full qualifications as a proportion of total enrolments has been provided.

The training packages have been grouped according to the Industry Skills Council responsible for the development of the training package.

It is evident in some training packages that the number of students who completed full or partial qualifications is less than the number of enrolments. This difference reflects the number of students who enrolled in at least one unit of competency from a training package and either did not meet the competency requirements, withdrew from the unit or never attempted the unit and is reflected in the column titled 'Qualifications not achieved'.

The most notable feature of the 2011 data is that which shows the Year 10 students achieved the highest proportion of qualifications (from enrolments in training packages with more than 20 students) from the SRC04 Community Recreation Industry training package. Other training packages with substantial qualification completions were the RTE03 Rural Production, FDF03 Food Processing, LMF07 Furnishings and CUS09 Music training packages.

Table 13: Enrolment and achievement activity of senior secondary students by Industry Skills Council (ISC) and academic year, 2011**

*Enrolled students who did not complete at least one unit of competency within the specified training package. They may have been withdrawn, did not start or failed the unit of competency.

Appendix 1

Table A: Vocational Education and Training—participation and achievement, 2011

This table gives a breakdown of student participation and achievement in VET. VET in schools is often delivered as an option in the mainstream curriculum, and offers students practical learning, introduces them to the world of work and provides employability skills.

An AQF VET qualification is a nationally recognised training qualification which is comprised of groupings of units of competency developed by industry. The achievement of an AQF VET qualification refers to completion of the required number of units of competency for the particular qualification.

The following notes provide definitions and explanations of each of the columns of data in Table A.

Number F/T eligible Year 12 students

This column provides the number of full-time eligible Year 12 students registered at the school.

Completed at least one unit of competency (UoC) in Year 12

These columns refer to the number and percentage of full-time eligible Year 12 students who completed at least one VET unit of competency.

Completed Certificate I in Year 10 to Year 12

These columns refer to the number and percentage of VET students in the school cohort who have completed an AQF VET Certificate I in years 10 to 12.

Completed Certificate II in Year 10 to Year 12

These columns refer to the number and percentage of VET students in the school cohort who have completed an AQF VET Certificate II in years 10 to 12.

Completed Certificate III or higher in Year 10 to Year 12

These columns refer to the number and percentage of VET students in the school cohort who have completed an AQF VET Certificate III or higher in Years 10 to 12.

Total number of qualifications completed over Years 10-12

This column refers to the number of qualifications in total achieved by the current Year 12 cohort over Years 10-12. A student may be represented more than once.

*Students who completed at least one VET unit of competency in Year 12

Appendix 2

Table B: Vocational Education and Training (VET) – qualifications awarded, 2011

This table gives a breakdown of student achievement of VET qualifications by certificate in Year 12. It only includes students eligible to graduate and does not show students who attempted and did not complete full certificates.

The qualifications are presented in order of code and the information is categorised in terms of gender and school type.

Table B: 2011 VET qualifications awarded*(As recorded by the School Curriculum and Standards Authority as at 31 December 2011)*

Qualification Code	Name	State-wide			Independent			Catholic			Government		
		Male	Female	Total	Male	Female	Total	Male	Female	Total	Male	Female	Total

**Students who achieved at least one unit of competency (Students are not included if they have been resulted as withdrawn, continuing enrolment or competency not achieved/fail). Additionally students may be enrolled in, more than one qualification and /or with one or more RTO.*

*** Schools with students enrolled in at least one unit of competency with the specified RTO*

**** Refers only to the total number of different units of competency not the number in total that the RTO delivers to schools.*

Glossary

Australasian Curriculum, Assessment and Certification Authorities (ACACA)

ACACA is the national body for the chief executives of the statutory bodies in the Australian States and Territories and in New Zealand responsible for certificates of senior secondary education. <http://acaca.bos.nsw.edu.au/>

ACACA VET sub group

Consist of representatives from each ACACA agency to collaborate in the policy advice related to implementation of the MCEETYA (now MCEECDYA) National Agreement and the National Training Framework.

Australian Curriculum, Assessment and Reporting Authority (ACARA)

The independent authority responsible for the development of a national curriculum, a national assessment program and a national data collection and reporting program that supports 21st century learning for all Australian students.

Accredited course

A course that is developed to meet training needs that are not addressed by existing training packages.

http://www.ncver.edu.au/resources/glossary/glossary_full_record.html?query=BROWSE&entry=Accredited+course

Australian Qualification Framework (AQF)

The national policy for regulated qualifications in Australian education and training. It incorporates the qualifications from each education and training sector into a single comprehensive national qualifications framework. The AQF was first introduced in 1995 to underpin the national system of qualifications in Australia encompassing higher education, vocational education and training and schools. The AQF 2011 provides the complete set of AQF policies and objectives and information about the governing and monitoring arrangements for the AQF.

http://www.ncver.edu.au/resources/glossary/glossary_full_record.html?query=BROWSE&entry=Australian+Qualifications+Framework

Australian Quality Training framework (AQTF)

A set of nationally agreed quality assurance arrangements for training and assessment services delivered by training organisations.

http://www.ncver.edu.au/resources/glossary/glossary_full_record.html?query=BROWSE&entry=Australian+Quality+Training+Framework

Australian Vocational Education and Training Management Information Statistical Standard (AVETMISS)

The agreed national data standard for the collection, analysis and reporting of vocational education and training information in Australia. The Standard consists of three parts: the AVETMIS Standard for VET Providers, the AVETMIS Standard for New Apprenticeships (now called Australian Apprenticeships), and the AVETMIS Standard for Financial Data.

http://www.ncver.edu.au/resources/glossary/glossary_full_record.html?query=BROWSE&entry=Australian+Vocational+Education+and+Training+Management+Information+Statistical+Standard

Catholic schools (system)

Refers to schools under the jurisdiction of the Catholic education Office of WA.

Certificate

An official document, issued by an awarding body, which records the training achievements of an individual following a standard assessment procedure.

http://www.ncver.edu.au/resources/glossary/glossary_full_record.html?query=BROWSE&entry=Certificate

COAG

Council of Australian Government

Credit transfer

The granting of status or credit by an institution or training organisation to students for modules (subjects) or units of competency completed at the same or another institution or training organisation.

http://www.ncver.edu.au/resources/glossary/glossary_full_record.html?query=BROWSE&entry=Credit+transfer

DTWD

Department of Training and Workforce Development in Western Australia

Employability skills

The skills which enable people to gain, keep and progress within employment, including skills in the clusters of work readiness and work habits, interpersonal skills and learning, thinking and adaptability skills.

http://www.ncver.edu.au/resources/glossary/glossary_full_record.html?query=BROWSE&entry=Employability+skills

Enrolled

In the context of this report 'enrolled' refers to students who studied a competency, however, they may not have successfully completed the unit.

Government schools (system)

Refer to schools under the jurisdiction of the Department of Education of Western Australia (includes independent public schools)

Independent Schools (sector)

Refer to schools under the jurisdiction of the Association of Independent Schools of WA (AISWA).

Industry Skills Council (ISC)

A set of 11 national bodies that have replaced the former national Industry Training Advisory Bodies (ITABs). They provide advice to Australian, state and territory governments on the training that is required by industry. The 11 ISCs are: Agri-Food Skills Australia; Community Services and Health; Construction and Property Services; ElectroComms and Energy Utilities (EE-Oz Training Standards); ForestWorks; Government Skills Australia; Innovation and Business Industry Skills Australia; Manufacturing Skills Australia; SkillsDMS Industry Skills Council; Service Skills Australia; and Transport and Logistics.

http://www.ncver.edu.au/resources/glossary/glossary_full_record.html?query=BROWSE&entry=Industry+Skills+Council

Industry Training Councils (ITC)

Non-government or not-for-profit bodies established by industry or business sector to address training issues and to provide advice to government about training priorities and the vocational education and training needs of a particular industry.

http://www.ncver.edu.au/resources/glossary/glossary_full_record.html?query=BROWSE&entry=Industry+Training+Council

Ministerial Council for Education, Early Childhood Development and Youth Affairs (MCEECDYA)

A council of ministers established on 1 July 2009 by the Council of Australian Governments (COAG) to replace the Ministerial Council on Education, Employment, Training and Youth Affairs (MCEETYA). Membership to MCEECDYA comprises State, Territory, Australian Government and New Zealand Ministers with responsibility for the portfolios of school education, early childhood development and youth affairs, with Papua New Guinea, Norfolk Island and East Timor having observer status. MCEECDYA's areas of responsibility are: primary and secondary education; youth affairs and youth policy relating to schooling; cross-sectoral matters including transitions and careers; early childhood development including early childhood education and care; and international education (school education).

http://www.ncver.edu.au/resources/glossary/glossary_full_record.html?query=BROWSE&entry=Ministerial+Council+for+Education%2C+Early+Childhood+Development+and+Youth+Affairs

Ministerial Council on Education, Employment, Training and Youth Affairs (MCEETYA)

A former body comprising State, Territory, Commonwealth and New Zealand Ministers with responsibility for the portfolios of education, employment, training and youth affairs, with Papua New Guinea and Norfolk Island having observer status. MCEETYA's areas of responsibility included all sectors of education, training, employment and youth affairs. MCEETYA replaced three previously existing councils: the Australian Education Council (AEC), the Council of Ministers of Vocational Education, Employment and Training (MOVEET) and the Youth Ministers Council (YMC). On 1 July 2009, MCEETYA was replaced by the Ministerial Council for Education, Early Childhood Development and Youth Affairs (MCEECDYA).

http://www.ncver.edu.au/resources/glossary/glossary_full_record.html?query=BROWSE&entry=Ministerial+Council+on+Education%2C+Employment%2C+Training+and+Youth+Affairs

Module

A self-contained block of learning which can be completed on its own or as part of a course and which may also result in the attainment of one or more units of competency.

http://www.ncver.edu.au/resources/glossary/glossary_full_record.html?query=BROWSE&entry=Module

National Centre for Vocational Education Research (NCVER)

A national research, evaluation and information organisation for the vocational education and training (VET) sector in Australia, jointly owned by the Commonwealth, state and territory ministers responsible for VET.

http://www.ncver.edu.au/resources/glossary/glossary_full_record.html?query=BROWSE&entry=National+Centre+for+Vocational+Education+Research

National Training Framework (NTF)

The component parts of the vocational education and training system - national competency standards, national qualifications and national assessment guidelines - and their relationship to each other including implementation, quality assurance and recognition strategies and procedures. The National Training Framework has been replaced by the National Skills Framework.

http://www.ncver.edu.au/resources/glossary/glossary_full_record.html?query=BROWSE&entry=National+Training+Framework

Nationally recognised training

An accredited program of study that leads to vocational qualifications and credentials that are recognised across Australia. Only registered training organisations that meet government quality standards such as TAFE, private providers and vocational divisions of universities can provide nationally recognised training. It includes accredited courses and endorsed training package qualifications.

http://www.ncver.edu.au/resources/glossary/glossary_full_record.html?query=BROWSE&entry=Nationally+recognised+training

Partnerships

An organisation such as an enterprise or school, not wishing to be a registered training organisation or to provide training itself, can enter into a partnership with a registered training organisation (RTO). The RTO will be responsible for the quality of training and assessment, and issuing qualifications and statements of attainment, in compliance with the Australian Quality Training Framework (AQTF).

http://www.ncver.edu.au/resources/glossary/glossary_full_record.html?query=BROWSE&entry=Partnerships

Post-secondary education

All education beyond secondary school level, including that delivered by universities, further education colleges and community providers.

http://www.ncver.edu.au/resources/glossary/glossary_full_record.html?query=BROWSE&entry=Post-secondary+education

Qualification

In the context of this report, qualifications include accredited courses unless otherwise stated.

Formal certification that is awarded by an accredited authority in recognition of the successful completion of an educational program. In the vocational education and training sector, qualifications are awarded when a person has satisfied all requirements of the units of competency or modules that comprise an Australian Qualifications Framework (AQF) qualification, as specified by a nationally endorsed training package or an accredited course that provides training for that qualification.

http://www.ncver.edu.au/resources/glossary/glossary_full_record.html?query=BROWSE&entry=Qualification

Registered training organisation (RTO)

An organisation registered by a state or territory registering and accrediting body to deliver training and/or conduct assessments and issue nationally recognised qualifications in accordance with the Australian Quality Training Framework. RTOs include TAFE colleges and institutes, adult and community education providers, private providers, community organisations, schools, higher education institutions, commercial and enterprise training providers, industry bodies and other organisations meeting the registration requirements.

http://www.ncver.edu.au/resources/glossary/glossary_full_record.html?query=BROWSE&entry=Registered+training+organisation

School

Includes both schools and other WACE providers

Senior Secondary Certificate of Education (SSCE)

A national title for senior secondary school qualifications recognised by the Australian Qualifications Framework and issued by the state and territory governments. The Senior Secondary Certificate of Education may include vocational education and training units leading to a relevant Certificates I-IV qualification.

http://www.ncver.edu.au/resources/glossary/glossary_full_record.html?query=BROWSE&entry=Senior+Secondary+Certificate+of+Education

Senior secondary student

Western Australian students in Years 10–12

Training Accreditation Council (TAC) WA

Responsible for quality assurance and recognition processes for RTOs and for the accreditation of courses. TAC subjects all school RTOs to the same audit processes as other training providers involved in VET for secondary school student delivery.

Unit of competency (UoC)

In the context of this report, qualifications include modules unless otherwise stated.

A component of a competency standard. A unit of competency is a statement of a key function or role in a particular job or occupation.

http://www.ncver.edu.au/resources/glossary/glossary_full_record.html?query=BROWSE&entry=Unit+of+competency

Vocational education and training (VET)

Post-compulsory education and training, excluding degree and higher level programs delivered by further education institutions, which provides people with occupational or work-related knowledge and skills. VET also includes programs which provide the basis for subsequent vocational programs. Alternative terms used internationally include technical and vocational education and training (TVET), vocational and technical education and training (VTET), technical and vocational education (TVE), vocational and technical education (VTE), further education and training (FET), and career and technical education (CTE).

VET in schools

A program which allows students to combine vocational studies with their general education curriculum. Students participating in VET in Schools continue to work towards their Senior Secondary School Certificate, while the VET component of their studies gives them credit towards a nationally recognised VET qualification. VET in Schools programs may involve structured work placements.

VET industry specific course

A VET industry specific course includes a full qualification from a training package and contributes towards the WACE as a WACE course.

VET integrated

VET integrated within a course involves students undertaking one or more VET units of competency

concurrently with a course unit. VET qualifications with units of competency that may align closely with the course are identified in the introduction to the course. Specific units of competency that provide meaningful pathways for further education, training or employment are suggested at the end of each relevant course unit. No unit equivalence is given for units of competency attained in this way.

VET credit transfer (within the WACE)

A program that involves students engaging in vocational education and training resulting in the attainment of nationally endorsed units of competency that lead to a full or partial AQF qualification can be used as credit transfer towards the WACE. Delivery and assessment of VET credit transfer occurs independently from any WACE course curriculum delivery.

Western Australian Certificate of Education (WACE)

The Western Australian Certificate of Education (WACE) is awarded to senior secondary school students who satisfy its requirements. It is a senior secondary certificate recognised nationally in the Australian Qualifications Framework (AQF). Generally, students complete two years of senior secondary study to achieve the WACE, although the Curriculum Council's provisions enable students to meet the WACE requirements over a lifetime.

WACE course

All Curriculum Council developed courses typically consist of units at three or four stages, each with its own syllabus. Students start with units appropriate to their stage of development.

Workplace learning (WPL)

Workplace learning provides opportunities for students to develop skills in the workplace and obtain credit towards the WACE. Students are placed in an appropriate work situation and are required to maintain a formal record of workplace learning. The Curriculum Council workplace learning models build on the strengths of current practices in schools. In addition to the Workplace Learning course, there are three ways of getting credit for workplace learning as an endorsed program.
