

Our Ref: 2025/69065v2

To the Principal
All Western Australian Primary Schools

Dear Principal

As we begin a new semester, I am pleased to share a further update on the work of the School Curriculum and Standards Authority (the Authority). The Authority's progress continues to benefit from the engagement and efforts of teachers and school leaders. I again thank everyone involved.

NAPLAN

This year's NAPLAN was conducted between Wednesday, 12 and Monday, 24 March. The printed Individual Student Reports (ISRs) have begun arriving in schools for distribution to students/parents/carers. The Authority has notified schools via a NAPLAN update about the availability of digital versions of the ISRs and how they can be accessed and downloaded. Schools are requested to check the hard copies and digital copies of ISRs carefully before distributing to students/parents/carers.

Adopting and adapting the Australian Curriculum version 9 within the Western Australian curriculum

I am very pleased to report that teachers are engaging with the Authority's professional learning opportunities that are supporting schools with familiarisation of the Western Australian curriculum for Pre-primary to Year 6 Humanities and Social Sciences, Mathematics, Science and Technologies. These in-person professional learning opportunities will continue throughout this term in regional centres. Registrations are still open via the Authority website Events page at <https://scsa.wa.edu.au/news-and-events/all-events>.

The Authority's Languages team has begun the consultation phase for the adopting and adapting process. The team has met with members of the Kindergarten to Year 2, Years 3 to 6 and Languages Years 7 to 10 Curriculum Advisory Committees and teachers representing ten Languages from Pre-primary to Year 10 to consult on the draft revised curriculum as part of the adopt and adapt process. Feedback from participants will be used to further refine the proposed content descriptions, accompanying examples and year level descriptions and achievement standards. Public consultation on the revised Languages curriculum will begin in September 2025.

Public consultation for the Pre-primary to Year 10 curriculum for The Arts will be scheduled later in Term 3. School will be advised via the Authority's circulars. The initial consultation will provide direction for the Authority's work in this area.

Abilities Based Learning, Western Australia (ABLEWA)

I would like to draw your attention to the ABLEWA curriculum and assessment tool. This is an important resource for teachers to support their work with students with disability and additional learning needs who are unable to access the Pre-primary to Year 10 Western Australian curriculum.

Information about ABLEWA is available on the Authority website at <https://k10outline.scsa.wa.edu.au/home/resources/ablewa>. If you require further information regarding the ABLEWA resources or materials, please email ablewa@scsa.wa.edu.au.

Brightpath

Many schools are taking advantage of the *Brightpath* resource through a license provided by the Authority. *Brightpath* provides classroom teachers and school leaders with assessment and moderation support.

Further information about the *Brightpath* resource is available on the Authority website at <https://k10outline.scsa.wa.edu.au/home/resources/brightpath>.

I wish you and your staff all the best for a productive and rewarding Term 3.

Yours sincerely

**PAULINE WHITE
CHAIR
SCHOOL CURRICULUM AND STANDARDS AUTHORITY**
