## WACE Achievement Data 2017

## 2017 Outcomes

Set out below is achievement data from the second cohort of students (2017) who completed the Western Australian Certificate of Education (WACE) under the requirements introduced for 2016 onwards.

## Year 12 population

- 25954 Year 12 students undertook studies towards the WACE, an increase of 2.02 per cent on the 25441 students in 2016.
- In addition, 3272 (3642 in 2016) 17-year-olds not enrolled in schools were engaged in apprenticeships, traineeships, employment and/or training.

## Secondary WACE achievement

- Of the 25954 Year 12 students ( 25441 in 2016), 24332 full-time students were eligible to achieve a WACE (23 360 in 2016).
- In 2017, 22174 ( 91.1 per cent) of eligible Year 12 students achieved a WACE. This compares to 21473 ( 91.9 per cent) in 2016. It should be remembered that the WACE is now significantly more rigorous as a result of the requirement for students to demonstrate minimum literacy and numeracy standards, attain a minimum numbers of 'C grades' and the completion of a Certificate II or higher for students not enrolled in ATAR courses.

## ATAR course examinations

- There were 13299 Year 12 students ( 54.7 per cent of Year 12 students who undertook full time studies towards the WACE) who sat four or more ATAR course examinations in 2017. In 2016, there were 13540 Year 12 students ( 58 per cent) who sat four or more ATAR course examinations. Students who sit four or more ATAR course examinations may be eligible for an ATAR.

## VET

- In 2017, 14774 Year 12 students achieved at least one VET qualification at Certificate II or higher in Year 10, 11 or 12, compared with 13547 in 2016.
- In 2017, 3692 students achieved a Certificate III and 957 students achieved a Certificate IV. The respective numbers in 2016 were 3408 and 674.

The increased focus on VET as an element of the WACE requirements for students who are not on an ATAR pathway has resulted in an increased number of completions of VET certificates by Year 12 students.

## Literacy and numeracy (excluding international students)

- 22757 (93.5 per cent) of WACE eligible students demonstrated all three numeracy, reading and writing standards by the end of Year 12.

The table below indicates the numbers and percentages of 2017 Year 12 students who:
(i) prequalified on the basis of their Year 9 NAPLAN results
(ii) qualified in a subsequent ONLA assessment in Years 10, 11 or 12.

The data includes only those full-time students who were registered with schools and were eligible for a WACE (i.e. they had completed the required number of units (including list A and list B unit enrolments), and completed either four Year 12 ATAR courses or a Certificate II or higher.

Table 1: Year 12 full-time WACE eligible students who achieved the literacy and numeracy standard (excluding international students)

| Population <br> $\mathbf{2 4 ~ 3 3 2 ~}$ | Pre-qualified <br> (number) | Pre-qualified <br> (per cent) | Achieved <br> through <br> OLNA <br> (number) | Achieved <br> through <br> OLNA <br> (per cent) | Achieved <br> the <br> standard <br> (total <br> number) | Achieved <br> the <br> standard <br> (per <br> cent) |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: |
| Reading | 13284 | 54.6 | 10485 | 43.1 | 23769 | 97.7 |
| Writing | 10985 | 45.1 | 12553 | 51.6 | 23538 | 96.7 |
| Numeracy | 13444 | 55.2 | 9917 | 40.8 | 23361 | 96.0 |
| All components | 7982 | 32.8 | 14775 | 60.7 | 22757 | 93.5 |

The data indicates that for the WACE eligible students:

- the percentage of students demonstrating the reading standard increased from 54.6 per cent in Year 9 to 97.7 per cent by the end of Year 12
- the percentage of students demonstrating the writing standard increased from 45.1 per cent in Year 9 to 96.7 per cent by the end of Year 12
- the percentage of students demonstrating the numeracy standard increased from 55.2 per cent in Year 9 to 96.0 per cent by the end of Year 12
- the percentage of students demonstrating all three standards of literacy (reading and writing) and numeracy increased from 32.8 per cent in Year 9 to 93.5 per cent by the end of Year 12.

This data is consistent with that reported for the 2016 Year 12 cohort in and indicates that schools and their teachers are continuing to respond very positively to the need to ensure that their students are able to demonstrate the required standards of literacy and numeracy (Australian Core Skills Framework, Level 3).
